## A more complete lid solution for glass jar packaging.

Designed to combine a clean one-piece user experience with a fixed inner liner structure. It can be matched with multiple glass jar sizes for food, beverage, storage and retail packaging projects.

### Integrated Split Design

Cleaner structure with the inner liner staying in place.

### Fixed Inner Liner

No loose inner disc during normal handling.

### Glass Jar Matching

Bottle and lid can be supplied as a complete set.

### Bulk Production

Daily output up to 200,000 pcs for selected lid items.

### Positioning

Suitable for B2B glass packaging projects. Application requirements should be confirmed by sample testing before bulk production.

## Specification Summary

Capacity	Jar Weight	Lid Size	Height	Diameter
16 oz	250 g	83 mm	103 mm	84 mm
18 oz	300 g	83 mm	128 mm	87 mm
26 oz	270 g	83 mm	140 mm	98 mm
26 oz	320 g	83 mm	150 mm	93 mm
32 oz	400 g	83 mm	185 mm	93 mm

### Traditional Screw-On Lid

Harder to open in some use cases.

### Two-Piece Lid System

Inner disc can be inconvenient to remove.

### 3rd Gen Comfort Twist

Integrated split design with liner staying in place.

**UPGRADED DESIGN**

### Core message

A practical lid system for buyers who need jar + lid matching, customization support and repeatable production quality.

## Build a packaging solution around your market needs.

We support different customization options for glass jars, lids, decoration and retail packaging. The goal is not only to supply a jar, but to help customers build a workable packaging set.

- **OEM / ODM / OBM**

Product development based on customer samples, drawings or market requirements.

- **Custom Printing**

Logo, label direction and decoration support.

- **Spray Coating**

Custom color and surface decoration options available by project.

- **Lid Options**

Color, finish, matching and packaging can be discussed by requirement.

- **Design Support**

Professional design room support for presentation and packaging development.

## Pickles & Preserved Vegetables

Suitable for pickles, olives and preserved vegetable packaging projects.

## Sauces & Condiments

For sauces, condiments, salsa and seasoning jar applications.

## Preserves & Fruit Products

For fruit products, preserves and jam-style retail packaging.

## Storage & Retail Packaging

For storage jars, retail programs and matching lid projects.

Application note: Final use depends on filling process, contents, target market regulations and sample testing.

## A colorful closure system built for easier opening.

This closure concept combines a cleaner one-piece user experience with stronger shelf appeal. Different ring colors, logo decoration and private-label development can be supported for food jars, sauce jars and retail packaging projects.

- **Simple Twist**  
Twist-style opening concept with clear brand recognition.
- **Easy Pop**  
Designed for an easy-open user experience in retail packaging.
- **Color Ring Options**  
Multiple ring colors can be discussed according to project needs.
- **Brand Customization**  
OEM / ODM / OBM and private-label support available.
- **Jar + Lid Matching**  
Closure and matching glass jar can be supplied as a complete set.

### OPENING CONCEPTS

Simple Twist

Easy Pop

Opening Revolution

For Everyone

### EASY 4-STEP OPENING

1 Place & Hold

2 Twist

3 Pop

4 Open & Enjoy

Brand customization support: ring color, top panel decoration, side printing and retail packaging can be developed according to market needs. Final structure and compatibility should be confirmed by sample testing.

## Peanut Butter & Spreads

Suitable for peanut butter, mayonnaise and other spread-style packaging projects.

## Jam & Fruit Products

For strawberry jam, fruit preserves and retail sweet-spread programs.

## Baby Food & Puree

Suitable for puree, baby food and smooth fruit packaging concepts.

## Retail Pack & Mason Jar Programs

Support tray packs, gifting concepts and jar + lid retail packaging projects.

Custom Label Direction

OEM / ODM / OBM

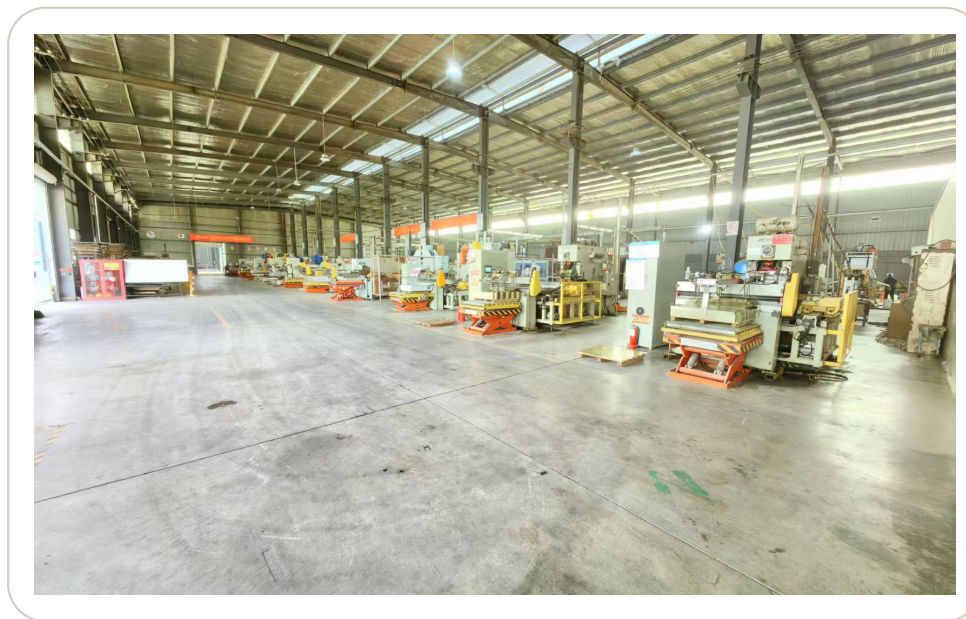

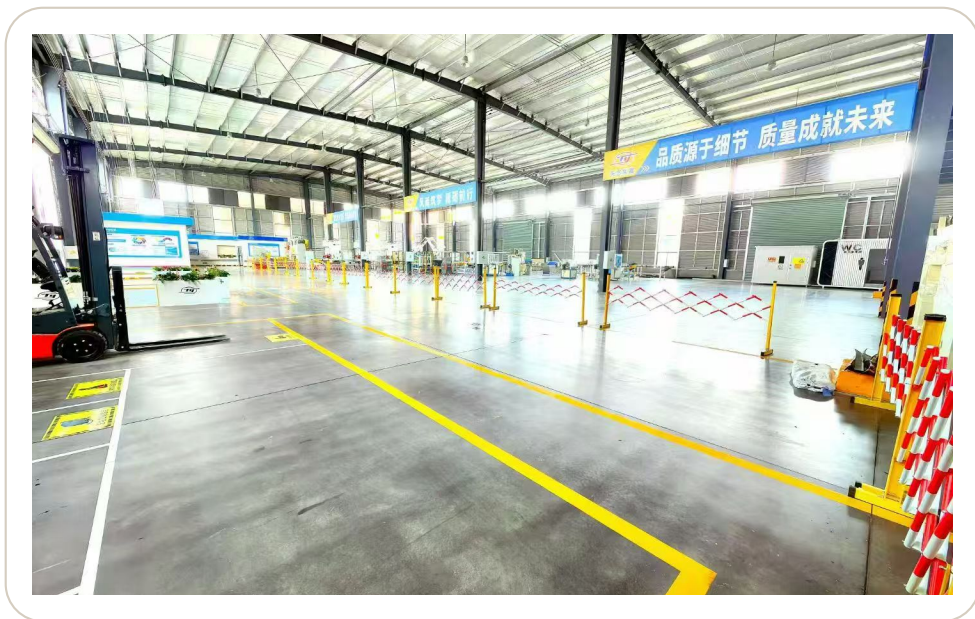

Private-Label Projects

Jar + Lid Matching

Suitable for spreads, jam, puree, vegetables, condiments and retail jar programs.  
Final use depends on jar finish, filling process, product contents and sample testing.

### Organized workshop

Clean production environment and workshop management.

### Bulk order capability

Stable supply support for jar and lid packaging projects.

### Audit experience

Walmart and BSCI audited factory.

### Project testing support

Sample confirmation and testing support before mass production.

For selected lid items, daily output can reach up to 200,000 pieces. Final capacity depends on item, order quantity and production schedule.

# Traditional 2-Piece Mason Jar Lid & Band

Classic U.S. market closure option

## Classic Lid System for Mason Jars

A traditional two-piece closure system consisting of a flat metal lid and a screw band. Widely used for mason jars, preserving jars, storage jars and replacement lid programs in the U.S. market.

Flat Lid + Screw Band

Regular & Wide Mouth Options

Silver / Gold Finish

Bulk Supply

### Suitable Size To Use

*Suitable size to fit your regular mouth canning jars and bottles*

### Two-piece structure

Separate flat lid and screw band design. Easy to match with mason jars and preserving jars.

### Common retail style

A familiar closure solution for canning jars, storage jars and replacement lid sets.

### Multiple finishes

Available in silver, gold and customized surface finishes according to project requirements.

### Jar matching support

Can be supplied as lid sets only or matched with glass jars as a complete packaging solution.

Suitable for mason jars, preserving jars, food storage jars and retail replacement lid programs. Final compatibility should be confirmed by jar mouth finish and sample testing.

# Retail Packs & Complete Jar Packaging Support

## Supply Options

### Lid sets only

Supply flat lids and screw bands as separate replacement lid packs or bulk lid sets.

### Jar + lid matching

Match lids with glass jars to build a complete packaging solution for customers.

### Retail pack support

Suitable for replacement lid programs, mason jar packs and private-label retail projects.

### Bulk order projects

Support B2B packaging projects with specification confirmation and sample testing.

### Suitable Applications

Mason jars · Preserving jars · Food storage jars · Dry food packaging · Gift jar packaging · Retail replacement lid packs

## Professional closure solution for food & beverage plants.

PT caps are designed for industrial food and beverage packaging projects. They must be used with retort sterilization or vacuum packaging equipment, not as general home-use canning lids.

### INDUSTRIAL USE ONLY

Use with retort or vacuum packaging equipment.  
Final use must be confirmed by sample testing.

### Retort sterilization

Designed for 121°C retort process reference and industrial sterilization lines.

### Vacuum packaging

Suitable for vacuum closing and professional filling operations.

### Rust-proof option

Upgraded rust-proof PT caps available for selected projects.

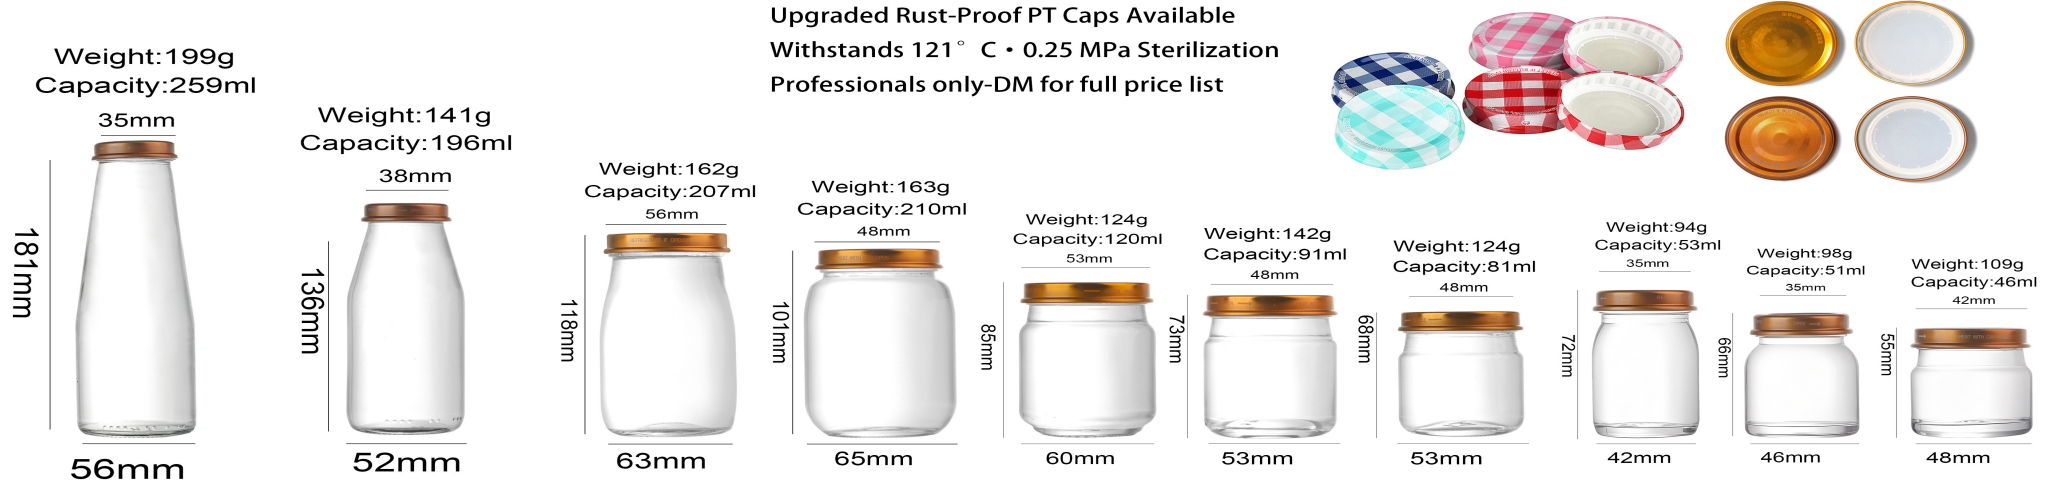

### Bottle matching

Matching glass bottles can be supplied as a complete set.

Recommended applications: bird's nest packaging, ready-to-drink beverages, functional drinks, juice, coffee, sauces and other food-processing projects that require industrial filling and closing equipment.

# PT Cap Bottle Size Options

Current PT cap product range

## Specification Summary

Capacity	Weight	Cap Size	Height	Diameter
259 ml	199 g	35 mm	181 mm	56 mm
196 ml	141 g	38 mm	136 mm	52 mm
207 ml	162 g	56 mm	118 mm	63 mm
210 ml	163 g	48 mm	101 mm	65 mm
120 ml	124 g	53 mm	85 mm	60 mm
91 ml	142 g	48 mm	73 mm	53 mm
81 ml	124 g	48 mm	68 mm	53 mm
53 ml	94 g	35 mm	72 mm	42 mm
51 ml	98 g	35 mm	66 mm	46 mm
46 ml	109 g	42 mm	55 mm	48 mm

Process note: PT caps are built for industrial sealing systems. Cap performance depends on bottle mouth finish, filling temperature, vacuum level, retort process and product formula. Sample testing is required before bulk production.

## Heat Resistant

Say Goodbye to Traditional Packaging  
Start a New Trend in Innovative Supplement Packaging.

*Solves Rust Problems*

Matched with Imported PT Lid

MOQ 5,000 pcs | Low Price | Partner Wanted

One-stop solution: Filling Machine • Sterilization Equipment • Logistics

## Made for production lines, not household canning.

This series is suitable for food and beverage processors that use professional filling, vacuum closing and retort sterilization equipment. It can be supplied together with matching glass bottles for complete packaging projects.

### Bird's nest packaging

Commonly used for bird's nest and premium liquid food packaging projects.

### Beverage processing

For ready-to-fill beverage, juice, coffee and functional drink projects.

### Food processing plants

Suitable for factories with retort or vacuum packaging equipment.

### Complete packaging supply

Glass bottle + PT cap matching available for project development.

## Project Confirmation Flow

01

**Bottle mouth finish**

02

**Filling line check**

03

**Vacuum closing**

04

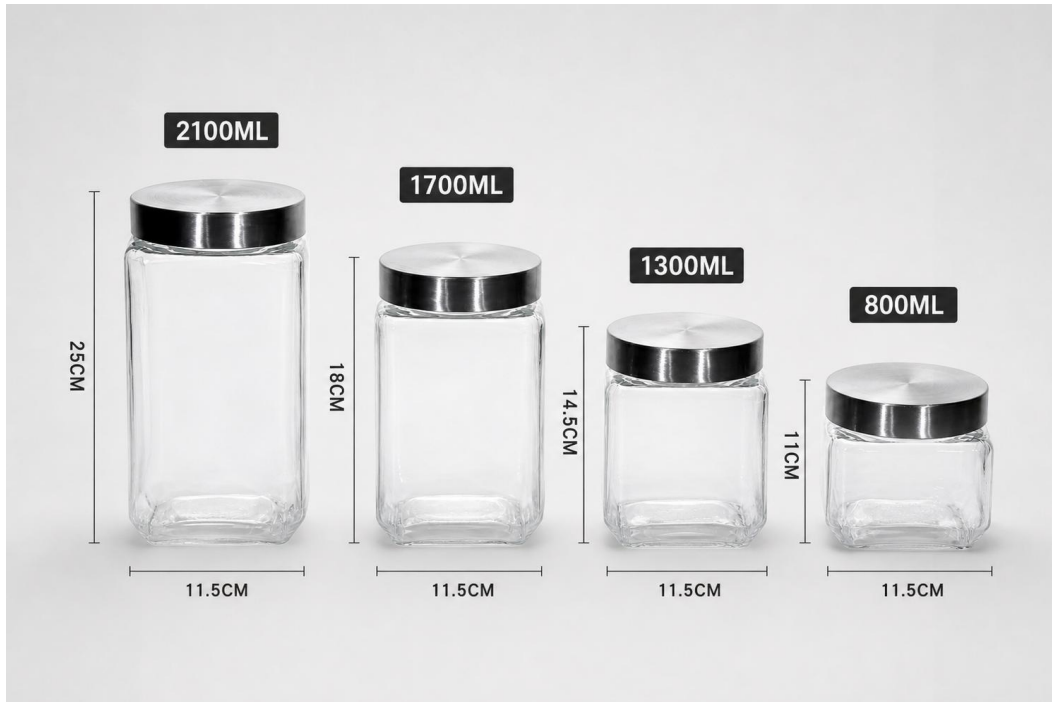

**Retort sterilization**

05

**Sample testing**

**Important: Not for home-use canning or daily household storage.**

Final use depends on the customer's filling equipment, product formula, sterilization process and local market requirements. Sample testing and technical confirmation are required before mass production.

## Clean storage solution for kitchen and retail sets.

A square glass storage jar series with a brushed silver-style metal lid. The wide-mouth opening and clear glass body make it suitable for pantry storage, dry food organization and retail home-storage programs.

Wide-mouth design

Clear glass body

Silver metal lid

### Easy access

Wide opening for filling, scooping and daily storage use.

### Brushed lid look

Silver metal finish gives a clean retail and kitchen-storage appearance.

Suitable for dry food, coffee beans, tea, nuts, candy, cookies, grains, spices and household storage projects. Final use should be confirmed by customer application and sample testing.

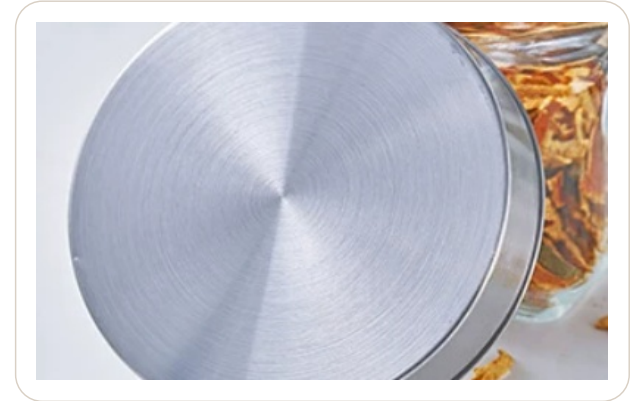

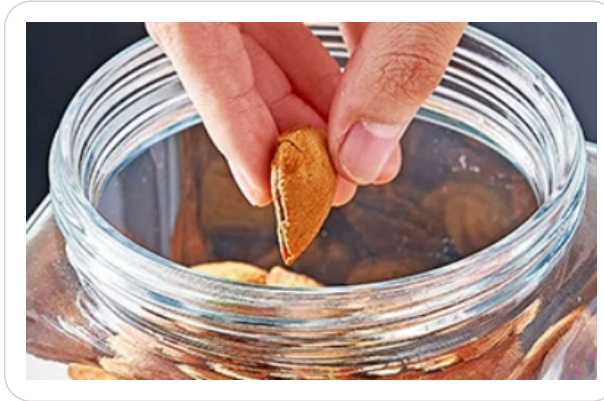

# Square Storage Jar Size Options

## Specification Summary

Capacity	Width	Height	Lid Finish	Suggested Use
2100 ml	11.5 cm	25 cm	Silver metal lid	Bulk dry food / pantry storage
1700 ml	11.5 cm	18 cm	Silver metal lid	Coffee beans / nuts / grains
1300 ml	11.5 cm	14.5 cm	Silver metal lid	Tea / snacks / cookies
800 ml	11.5 cm	11 cm	Silver metal lid	Candy / spices / small storage

All four sizes share an 11.5 cm square body width. Lid matching, carton packing and retail set configuration can be adjusted according to customer requirements.

## Built for practical storage programs.

This storage jar series is designed for common household storage and retail jar programs. It can be sold as individual jars, multi-size sets or customized packaging projects with labels, outer boxes and matching lid finishes.

### Kitchen & pantry storage

For dry food organization, countertop display and pantry storage sets.

### Retail set programs

Suitable for multi-size retail packs and home-storage product lines.

### Custom packaging support

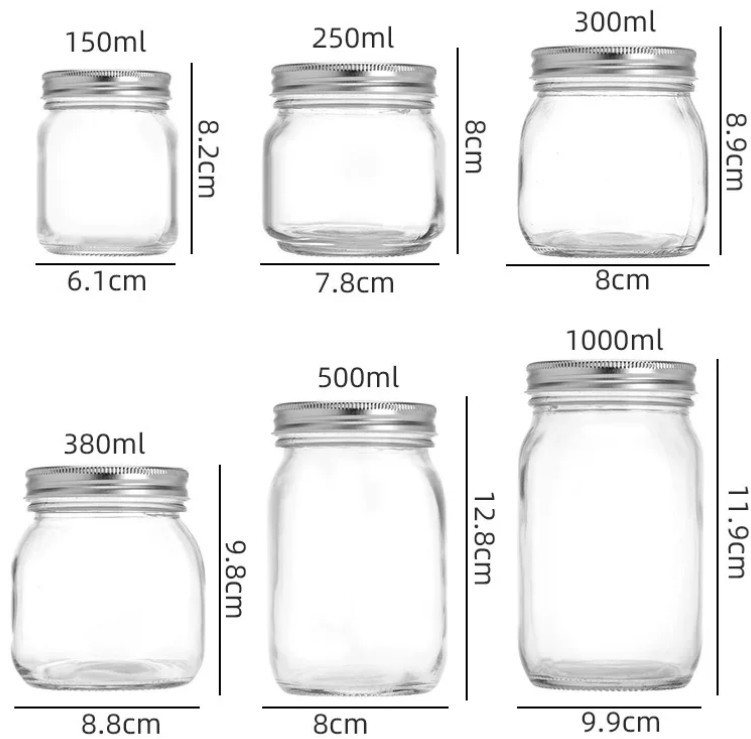

Logo label direction, gift box and carton packing can be discussed by project.

### Jar + lid supply

Glass jar and matching metal lid can be supplied together as a complete set.

### Suitable Applications

Coffee beans · Tea · Nuts · Candy · Cookies · Spices · Grains · Dried fruit · Household storage · Retail storage jar sets

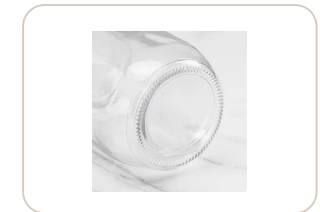

## A practical jar series for pantry and retail storage.

This classic clear glass jar series is designed for household storage, dry-food organization and retail home-storage programs. The wide-mouth opening, screw-thread finish and metal lid options make it easy to build multi-size sets for the U.S. market.
